Going paperless is no longer a luxury
In this market, it is a necessity.

The Encompass 360 eFolder is the strongest on the market today. It combines the ability to incorporate business rules into your document management at the inception of the loan process. While residing within the Encompass system, the eFolder gives you the ability to streamline your workflow as documents are requested and returned directly into the loan file.

The customization ability within Encompass allows the eFolder to be a critical component to all departments within the company while also providing a single database for all to view the same documents.

Customization packages can be completed in as little as 60 days.
